=====

Identification of substance

=====

The test strips listed above are categorized in OSHA section 29 CFR 1910.1200(b), as an *article* and **NO MSDS IS REQUIRED**. OSHA defines an *article* as a “manufactured item other than fluid or particle: (i) which is formed to specific shape or design during manufacture, (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical... and does not pose a physical hazard or health risk”.

Transport Information: This product does not pose any risk in transporting

Accidental Release Measure: If the product is spilled, dispose of all products as normal household waste.
