LabTech MoldOK Mold Test Kit Safety Data Sheet

Date Issued: 3/9/2018

The LabTech MoldOK Mold Test Kit manufactured by Alpha Energy Laboratories and sold by LabTech is considered an "Article" and is not considered as hazardous materials as defined under the OSHA Hazard Communications Standard, 29 CFS 1910.1200 or S.A.R.A., Title III, Section 313.

"Articles" under the OSHA standard means a manufactured item which:

- (1) Is formed to a specific shape or design during manufacture
- (2) Which has end use function(s) dependent in whole or in part upon its shape or design during end use
- (3) Which does not release a hazardous chemical under normal conditions of use

Normal conditions of use for the LabTech MoldOK Mold Test Kit are storage prior to usage, and use of the product according to instructions. Normal conditions of storage and/or use do not require the product to be cut, damaged, or burned in any manner that would result in anticipated exposure to hazardous chemicals. The LabTech MoldOK Mold Test Kit may be stored indoors or outdoors at any normal ambient or climate controlled temperature, and is not a hazardous material when stored under these conditions.

Furthermore, the materials used in the final product are likewise Articles, and similarly are not considered hazardous materials as defined above.

The information contained here is accurate to the best of our knowledge. Alpha Energy Laboratories makes no warranty with respect to said information and disclaims all liability from reliance therein.
